PROFILE

Motivated Software Engineering student with skills in **Python, SQL, Excel, Power BI, React.js, and JavaScript**, with experience in web development and data analytics. Skilled in **data cleaning, data visualization, dashboard development, and extracting insights from data**. Passionate about building user-friendly applications and transforming data into meaningful insights.

EDUCATION

Aditya Silver Oak University

Ahmedabad, India

Bachelor of Engineering in Computer Engineering

2023 – 2027

- **Relevant coursework:** Web Development, Database Management, Software Engineering, UI/UX Design, Programming Fundamentals
- Developed academic and real-world software projects using Python, JavaScript, React.js and Figma

SKILLS

Technical: Python, SQL, Excel, Power BI, JavaScript, React.js, HTML, CSS, SQLite

Data Analytics: Data Analysis, Data Cleaning, Data Visualization, Excel Dashboards, Power BI Dashboards, DAX, Power Query, Pivot Tables

Tools: Power BI, Microsoft Excel, VS Code, Figma, Git & GitHub, Canva, Chrome DevTools

LANGUAGES

- English (Basic)
- Hindi (Fluent)
- Urdu (Native/Bilingual Proficiency)
- Kashmiri (Native/Bilingual Proficiency)

CERTIFICATIONS

- **JavaScript Course With Certification: Unlocking the Power of JavaScript** — Scaler Topics (2026)
- **Power BI for Beginners** — Simplilearn SkillUp (2026)
- **Excel Dashboard for Beginners** — Simplilearn SkillUp (2026)
- **GenAI Powered Data Analytics Job Simulation** — Tata Group & Forage (2026)
- **Green Skills and Artificial Intelligence** — Edunet Foundation, AICTE & Shell India (2026)

PROJECTS

E-Commerce Website | [live demo](#) | [Github](#)

2025 – 2026

- Developed a responsive e-commerce website using React.js
- Designed product pages, navigation system, and user-friendly interface
- Optimized frontend performance and improved website responsiveness across devices

News App | [live demo](#) | [Github](#)

2025

- Built a news application to display real-time news updates using React and APIs
- Implemented category-based news browsing with a clean and responsive UI design
- Integrated APIs to deliver real-time news updates with faster content loading

Weather App | [live demo](#) | [Github](#)

2025

- Created a weather application using JavaScript and weather API integration
- Displayed real-time temperature, weather conditions, and location-based forecasts
- Implemented API-based weather forecasting with a responsive and user-friendly interface

TextUtils React | [live demo](#) | [Github](#)

2025

- Developed a text utility web application using React.js
- Implemented features like text conversion, word counting, and text formatting
- Improved user experience with responsive design and interactive interface

CSV Insight Dashboard | [Live Demo](#) | [Github](#)

2025

- Developed an AI-assisted data analytics dashboard using **Codex**, HTML, CSS, JavaScript, PapaParse, and Chart.js.
- Implemented automated CSV parsing, data profiling, statistical analysis, and intelligent chart generation for data visualization.
- Built a responsive interface featuring insights, correlation analysis, data previews, and JSON export functionality.

NOVA AI | [GitHub](#) (Ongoing Project)

- Created an AI-powered virtual assistant capable of answering questions and generating intelligent responses in real time.
- Developed the frontend using **React.js** and the backend using **Node.js** and **Express.js**, integrating the **Groq API** for AI capabilities.
- Optimized API calls and application performance while maintaining a clean and intuitive user interface.

HR Analytics Dashboard | [GITHUB](#) | Power BI

2026

- Built an interactive dashboard to analyze **employee demographics, workforce trends, and HR KPIs**.
- Used **Power BI, DAX, and Power Query** for data analysis and transformation.
- Created interactive visualizations to generate **actionable HR insights**.

ACHIEVEMENTS

- Completed certifications in **Power BI and Excel Dashboard development**.
- Developed practical knowledge of **data analysis, data visualization, dashboards, Power Query, DAX, and Excel**.
- Demonstrated proficiency in **Python, SQL, Excel, Power BI, JavaScript, and React.js** through academic and personal projects.
